

Letter of Recommendation

I would like to recommend Niraj Shrestha for admission to the graduate program at your university. I have known Niraj for about 3 years now as an undergraduate student in Computer Engineering. Moreover, I was the supervisor for his final year project. I taught him Theory of Computation, Software Engineering, and COA.

I recall Niraj as a sincere and hardworking student. He maintained excellent academic performance throughout his undergraduate ranking among the top 10 % students of his batch. As an instructor and his supervisor too I had enough opportunity to observe his capabilities closely.

I was the supervisor in his project titled Time Travel. I was quite impressed by his hardworking nature and learning capability. I supervised him in his project Letter Generator. I could observe his keen interest and aptitude for research while working on the project.

I have noted his outstanding presentation skills while he presented his work at our department as well as in the conference. He is a well-spoken person with a friendly and gentle personality. He also has given his time to different social causes. He is very helpful and cooperative student. He eagerly handed over his project work to his juniors who wanted to further continue the research on the topic along with proper guidance and resources. I have also been impressed by his communication skills during project presentations and lectures.

I appreciate his technical and professional skills. Besides academics, he was also involved in several extra-curricular activities. He participated in various competitions organized in and off the campus. He has worked in some IT companies which, I believe, has further added to his technical skills and professional experience.

I am quite confident that Niraj's skills coupled with academic capability will make him a good candidate for your university. Thus, I would highly recommend him for the graduate program at your esteemed university. Please feel free to contact me if further enquiry is required.

Aman Shakya,
Assistant Professor,
Department of Computer and Electronics Engineering
Pulchowk Campus, Institute of Engineering, Tribhuvan University
